Happy Families, Happy Futures - a range of interventions designed to help parents in conflict resolve their issues and work together to parent their children effectively.

Play Therapy - For children aged 5-12 years, support to learn more helpful behaviours, understand their emotions, and resolving inner conflicts.

Trauma Specialist Coaching - For parents, children and teens, where challenging behaviour or mental health challenges have their basis in trauma.

We also work with 16 GP surgeries across Exeter, to help their families access the Early Help offer.
